Industrial Combination Truck

SV3750 8x4 Cassette

Technical Specifications

Affordable Quality

Highlights

Built for Australian conditions

The Spoutvac 8x4 SV3750 Cassette combination truck comes with all the options of the traditional SV3750 Boom truck as well as having the extendable Vacuum hose option. Health and Safety is paramount with the Cassette system with its ability to lower and raise the vacuum hose in a pit with minimal lifting by the operator and its snake like design providing less blockages than other extendable vacuum hose systems.
